

# MULTIFUNCTIONAL

Sagem has extended its offering to the business sector with the introduction of a new range of cost effective, compact, entry level multifunction products, as well as the new award winning MF6890 LCD printer offering built in scanning, copying, emailing and 16ppm colour printing.

Sagem also offer a range of Pay As You Go copiers, from 23ppm to 45ppm which come with a choice of three bolt on service packages ensuring flexibility for the user.

# MOBILES

Sagem's Mobile Phones Division is a major player in the cellular industry. With a strong position worldwide, Sagem has a wide offering of mobile phones from simple handsets to smartphones, from candy bar to Water Thin with the latest technological features (built-in digital cameras, 2million mega pixels, colour screens, java, Bluetooth etc).

# ADSL/DECT

Sagem Communication UK Ltd, product range also includes ADSL modems, DECT phones & superior projectors with DLP technology, at equivalent price points to entry level LCD projectors. The Sagem MDP 1600, MDP 2300-X and the CDP 1100-X are all first class models with state of the art features.

# PHOTO PRINTERS

Editing and printing high quality photographs has never been so easy and convenient - Sagem's photo printers produce high quality 10cms x 15cms borderless prints in under 60 seconds. A high density plastic laminate seals the dyes into strong, tear-proof photographic paper and protects the prints from fading, water damage and fingerprints.
